

CoinFresh

**YOUR TURNKEY INVESTMENT
EXPERIENCE**

Introduction

CoinFresh facilitates investment opportunities and education for the crypto community. The platform is friendly for users of all experience levels and facilitates understanding regarding investment risk and strategy. Projects maintain vetting from expert analysts who share their methodologies with the community, thereby providing education and protection to CoinFresh users!

- **All-In-One Platform**
- **Easy Access to whitelists**
- **Quality Assurance**
- **Incentivized Ecosystem**

Problem & Solution

● Problem

Campaigns like SweepWidget and Glean make it easy for projects to track incentives but don't facilitate access for creators and developers or sufficiently incentivize user loyalty. Many investors often liquidate quickly, and the team must engage with multiple communities to maximize their exposure to presale whitelist projects.

● CoinFresh Solution

CoinFresh bridges this disconnect by aggregating high-quality presale whitelist projects in a single incentivized blockchain environment. We're your one-stop shop to engage with a large community of highly dedicated and incentivized investors.

Benefits of CoinFresh

● Investors

Whitelist Access - Get access to whitelists more easily by holding CoinFresh tokens. Each project listed on the site will hand out 10% of the whitelist allocations to CoinFresh holders.

Vetted projects only - Each project is thoroughly vetted by the CoinFresh team prior to release. Enjoy all the benefits of whitelist access without spending countless hours doing research. We will do it for you!

Education - CoinFresh holders will benefits from frequent informative and educational videos and articles written by experts with years of experience of the scene.

Benefits of CoinFresh

● Developers

Broad Audience - In exchange for the whitelist allocations, developers will get access to our broad audience of CoinFresh holders.

Marketing Assistance - Exclusive usage of CoinFresh marketing connections, including contacts to listing sites. Free of charge.

KYC Audits - Access to proper KYC audit conducted by outside legal team.

Cost savings - Save in marketing costs by using CoinFresh as your one-stop marketing and whitelist hub. Benefit from our connections in exchange for whitelist allocation spots.

Tokenomics

● \$CoinFresh

Total Supply - 1 Quadrillion tokens

50% Initial Burn before launch

Buy Tax 10%

- 5% Marketing
- 3% Liquidity
- 2% Project Development

Sell Tax 16%

- 3% Rewards
- 5% Marketing
- 3% Liquidity
- 2% Development and Salaries
- 3% Buyback and Burn

CoinFresh Usage

● Revenue model

Platform Revenue

CoinFresh platform gets revenue from selling strategically placed banner advertisements on the website and by reserving dedicated spots for sponsored listings. Note! These listings will be clearly marked as sponsored listings.

Revenue Usage

20% of the revenue generated will be used to buy and burn \$CoinFresh tokens, thus driving the price of the token higher and further giving incentive to hold the tokens.

Major amount of the funds are used to develop the platform features and market it through various methods, such as Google and Facebook Ads.

10% is reserved fully for charity usage.

Whitelist Access

● Spot allocations

CoinFresh token holders

10% of the whitelist spots for audited projects are secured exclusively for CoinFresh token holders.

VIP Access

60-70% of the whitelist spots are reserved for VIP Access holders.

VIP Access subscription is given to loyal holders based on their token holding time. It can also be obtained through various competitions, such as biggest buy competition, held frequently to the CoinFresh token holders.

Buy and Burn

30% of the spots can be purchased with CoinFresh tokens, which are then burned to further drive token supply down and rise the floor price.

Roadmap

Phase 1 - Nov 21

Project Planning

Team Building

Team Building

Website Launch

Phase 2 - Dec 21

Private Sale

Platform Launch

Website Revamp

Project Partnerships

Alpha Testing
